(Maybe I need to use reverse psychology here.)

Everyone who doesn't approve, please posts every possible feeling you might have about every potentiality on this topic. Please also feel free to derail this well intentioned endeavour, with your flame spam, and personal, uninformed "feelings". Disregard any common sense, and refute the fact that he's a vital member of this dying community. Also disregard the fact that I really wanted to hear from supporters, and the fact that crimson ASKED for community input on moderators via petition.

Lastly, PLEASE do not read any of the above posts, as it may actually give you half a clue of what the hell has already been discussed

We really want to hear from you!!

:rolleyes:
