I've tried SSAOW 1.5.1 w/ botfix but NR has a fit and god forbid any of my host(s) press the wrong key or click the wrong thing because it would reinstall SSAOW 1.5 -.-

And Merovingian, if you do get some time just drop by and let us know you'll help out and we'll setup your forum permissions and give you links to the plans. I'll be compiling a building list hoopefully today.
