havoc9826 wrote on Mon, 21 May 2007 05:10 Can't you have robots.txt tell them to leave, or would that prevent legitimate Google/Archive.org caching? Or are these crawlers the kind that ignore robots.txt?

Robots.txt works like a charm.

Robots can take a LOT of your bandwidth. Might be good to configure your robots.txt to only allows google bot or only allow them to search the index.
