How do I add an image to my Siggy?????

<http://www.n00bstories.com/image.fetch.php?id=1169642274>

I wan to add that to my Siggy, but it is way too big, so how do I shrink it?? and how do I make the e-mail addresses hyperlink so you can e-mail the people by just clicking their e-mil address, I used Macromedia Flash to make it If that helps you out????

Please do not post pictures with the IMG tag that exceed the width of the forum table. I would recommend Irfanview for image resizing, it's the best freeware graphics viewer, period.
