Well why don't you jsut go and fix it yourself! these people work alot on Renguard and they don't get paid and they have lifes too! they don't just sit hjere and answer your every friggen request...A good program takes time...same as everything else....everything has bugs so you are going to have to live with it these people care...but Renguard isn't the only thing they have to take care of and most ppl think tht because the bugs arn't gfixed soon that they jsut don't care....

If BHS released the source to a few people I'm sure they might have a look at it. No mass D/Cs good job, however, there are still a few D/Cs that must be taken care of. They all seem to be targeted to a few people.
