lavamike wrote on Wed, 23 May 2007 16:19 I have cheats for renegade on my computer but i only use them to mess round with bots and on single player and stuff wehn my internet is down/bored etc. (I NEVER use chetas online...)

I do not believe you

However, it appears that most of us are suffering until the RG problem is fixed. In defence of RG, the latest patch appears to have stopped most of my crashes. I now have a couple per session as opposed to 10 per game
