hate to tell you this but it still disconnects less than a minute later. only new thing is that the WW config tool activates now then after it disconnects.

EDIT: did another md5 check:

816fb75a38701c81212df8dcb50f916d \*game.exe

14285ccdb5ad5d010096c9b94b4abe5 \*game2.exe
