m1a1\_abrams wrote on Thu, 24 May 2007 06:29 The Renegade Transport Helicopter is shaped quite different to a Chinook. It looks a little closer to a CH-46 Sea Knight, but it's still shaped all wrong. It seems heavily based on the US Army type of transport helicopters, don't think it has a real life counterpart.

Yeah you're right, it does look more like the flying banana of which the Chinook was a further development of. For some reason I have always thought of it as a Chinook. Probably because in red alert they make it clear its a Chinook by simply calling it that.
