<http://www.snopes.com/horrors/madmen/slavemaster.asp>

Now wouldn't it have been easier to search google than just taking things you see on the internet as truth?

It still amazes me that people send all this spam around, about the worst virus ever! or a man eating spider or bill gates giving away millions to people who forward emails.

IF YOU AREN'T SURE JUST USE A FUCKING SEARCH ENGINE BEFORE PERPETUATING THE SPAM.

Thank you, rant over.
