ROFL? 2000+ ping? With diapup (56k), I only got 300 ping. This is whiskey's cw server btw. few things:

-He didnt have renguard, so he got kicked because full renguard server
-He has never played a real clanwar, thus had to re-explain basic rules, tell the pases for all the cw servers i had to see if were full renguard or not
-says renguard lags him, but how do you get 2000 ping without renguard? excuse?
