I think it is time, we as people who love and still play the game, get together and remake the skins/sounds used.

We could even import the models into max and re-unwrap them for new high quality skins! The skins now are nice, but they could be bigger and look better! Also the sounds could be better the same old sounds all the time are kinda boring...

Till renegade 2007 comes out lets do this! Who wants to get in?
I dunno...
