It is 50 mb . Its the perfect volume in LE but once ingame u cant hear it. Also I forgot to add, I put in a teleport zone with the script JFW_Teleport_Custom_Random cause its for tanks and I dont want people getting stuck in the spot they teleport to. So I put in 5 different positions for it to spawn to, and it wont spawn. I attahced that to Script Zone All and all the positions are correct. Althought it says Location1 and ID1 I dont need ID do I? I thought it was just 1 or the other.
