I got the lowest 15.4" Mac and i must admit, it is fan-bloody-tastic. It's got a bigger hard drive than yours, the clock speed is the same but i have 1gb of ram and i can say, i'm glad i got one. I got mine for just over £1000 (\$2000) with educational discounts and no VAT (school payed VAT).

Tell me Mac haters, why do you dislike them so much? And don't say because you can't play games on them because they can, sometimes better than windows can.
