"Sk8rRIMuk" This site is good and I really need that "Boolean Function" tutorial to get a little head start before I take 3D Modeling & Animation at collage...

where is the tutorial then...

That site rocks by the way I will add it to the links section of my site (which I will make today).

-Sk8rRIMuk

Check your email? I sent it to you, but got an error saying your box was full. sorry.
