XpZSSnipe wrote on Wed, 06 June 2007 03:17u know that stuff is BS dude.....vash made most of that crap up and got people like u to go for it we all know hes good at shit like editing and ect he could have done that shit easy u can think what you want but thats you lol dude, Vash has nothing to do with it.

I caught him cheating. Yonegga had posted the screenshots and I noticed bigheadbox on them. Ya know how I know that Vash didn't make crap up? Because I'm the guy who pointed it out to everyone. I even have screenshots that tell that the old admins had known about yonnie cheating for years.

Please re-read my post. Noone had any proof that Yonnie cheated until I came along. You're just believing whatever Yonnie and his moderators say because you want to keep your mod status there.
