Jeep Rubi wrote on Fri, 08 June 2007 21:15It's obviously no fault of the driver. How would he have known that there was a man in a wheelchair in front of him. I think it's mostly the guy in the wheelchair's fault because lights turn yellow well in advance of turning red, and before they turn yellow the freaking hand blinks.

Well, he's part to blame for it, yes, he couldn't see, but he should have known that he was there before he got right up to him.
