ok i edited islands map and added some temps and when i joined i got blue screen then kicked to desktop and server said i lost connection so i deleted my temps redid it i got in but then same thing happen to other players heres and ss
<http://i182.photobucket.com/albums/x144/joe937465/wtf.jpg>

if someone can ill send the lvl files i worked on and maybe someone can find out what im doing?
