joe937465 wrote on Mon, 11 June 2007 17:17today i downloaded it from game-maps.com and replaced my files with them so my shit wont crash when adding bots.....but now my serv along with brenbot starts up then just closes? why?  
You shouldn't cuss are your age.

Did you set the options right? Be more specific. ./

Edit: This topic belongs in the fds section btw
