Well you're accusing me of a cheater but you cannot actually prove it. You say my skins give me an advantage yet you can't tell me what advantage that is. What do you gain? You gain the fact that you Own3d me and made me cry, lol.

Hello? Let me guess you're going to ignore me again? Ok. Firstly whats the problem with Direct Connect? Its the same as GameSpy just without the server listings and chat room. You can use RenGuard with direct connect.

So how about our 1v1? I'll even ask someone prehaps Crimson or some such to set up us a NON-IRC server with BIATCH and whatever else installed just so you can play without the fear off me cheating. Also I'll go pure mode if you wish and play with my WOL nick. You now have no excuse to not play me.
