joe937465 wrote on Thu, 14 June 2007 04:42ok i got ramps but cant go into settings because when i click level settings it crashes because of this file d3d8.dll

its one of those send or dont send error messages

Yes I had the same problem, but in adiffrent area. Just try deleting the DLL and then it might work. For me Game.exe would not start because of this but deleting this solved the problem.
