For about several months I sort of lost the Renegade disc, and so I couldn't play the game until I found it today. So i'm real excited and reinstalled Renegade and Renguard, but when I ran the game Renguard came up with this message:

22:07] Bad/Corrupted file data\always.dbs has been found in your renegade directory.
[22:07] You have been disconnected from RenGuard, .

So now I can't connect...   Anyone know what the problem is, and can i fix it? I really want to try playing this game again.
