Sn1per74(2) wrote on Sat, 16 June 2007 13:10I edited M00_tutorial. When some1 tries to get on a ladder they just get stuck on there, they can't move up or down. When I try the ladders in Level Edit they work perfectly. YES the bottom of ladder is on the bottom and the top of the ladder is on top.

Weird.

Make sure the ladder world box is not stuck in the ground and that the bottom and top is lined up on each other.

Dont know what elas to say. :s
