Blazer wrote on Mon, 18 June 2007 18:24I'd like to see how RG can "destroy" a Renegade installation, since it only touches files which can easily be reverted back to normal.

Rengaurd ate my game.exe back then and deleted it when i uninstalled rengaurd.....I just reinstalled, applied patch, new scripts.dll and my old saved data folder and did it in 15min...back to normal.
