Who cares ?
You should really read my post better before being an smart ass I know how to create thumbnails, but it requires you to edit the image and upload it. and THATS not possible on the fly with this board.

Cat998 wrote on Tue, 19 June 2007 16:59Oblivion165 wrote on Tue, 19 June 2007 16:37Thumbnails man, those pictures are huge.

There are no thumbnails with direct linking

Oh I'm sorry, that post clearly indicates that you know how create thumbnails.

icedog90 wrote on Thu, 04 January 2007 02:12
Images: When posting images in the forum, try to keep their size below 1024*768 pixels. This is to avoid screen stretching, as well as loading several large images each time you try to read a thread. Use thumbnails or links if possible.

And that is why I brought it up. Just because you people don't want me to be a moderator doesn't mean I wont use the rules for my argument.

That being said I'll be on my way, there is really no point to this hassle for either of us.

EDIT:
Canadacdn wrote on Tue, 19 June 2007 17:31^ Traveling in time is magic!

Boon doggies! You got to like The Doctor.
