I hate flying maps, I been having problems with these for the last 2 weeks, am pretty sure, you gonna feel the same.

To save time, Reborn made a walls_flying.lvl file which has been added here.

Walls_Flying.lvl

Back on topic, you had the same problem as me, my doors wouldnt work and the ramps wasnt "real", Zunnie fixed it for me, by adding an .w3d file or something, but to be honest, I still dont understand what fixed it, it works now, so am happy, expect the airstrip waypoints aint working, lol.
