Doitle wrote on Thu, 21 June 2007 08:50 Why would they need to drive? They can fly... There are only going to be flying vehicles on this map most likely anyhow so it would just be redundant. I am considering leaving the option for other vehicles though for defence. People trying to cram mammoths on the platform and some of them going tumbling off the side lol. I'm just worried that will horribly unbalance things with Nod filling their platform with Artillery and one hitting everything.

By 'drive' i meant they can't use vehicles...including flying vehicles with the powerup...
