I doubt he photoshopped a screenshot just for this "joke", Everyone can plainly see the truth.

Since you keep defending him, he must be a close friend of yours...maybe its even you. If so, I recommend you run ad-aware.

I'm running linux...typical adware won't even run on this machine.

I suggest you check out ***** if you wanna know the truth behind this.

Fact of the matter it, i believe that wasn't photoshopped but taken from a forum that does have these sorts of ads
