too bad there were no mods there, he eventually made that server empty that day

wow....your are by far the smartest player that has ever played....ban the haxer...

alright smart guy, if he wasnt cheating what was it??

and no he wasnt the host... and the whole time his ping was 0 for 30 mins straight ping 0 actually means that brenbot couldn't properly determine the ping of that player. So I bet he had some lag lol
