I downloaded and copied all the new files where they need to be. Shortly after I launched Renegade, Renguard said this:

[11:42] Trying to connect to server #1...Connected!

[11:42] Secure link established.

[11:42] Welcome to RenGuard, DCOMDave!

[11:42] To launch Renegade, please click 'Renegade'.

[11:42] WARNING: Model Textures (Skins) have been detected on your client! You will not be able to join a pure server.

[11:43] You have joined n00bstories.com AOW/CCM.

[11:43] Your attempt to use the lan-exploit has been logged and will be reviewed.

[11:43] You have been disconnected from RenGuard, DCOMDave.

I don't know if this has anything to do with the new scripts, but I have never gotten this until now.

Edit: It doesn't appear to be happening again. Weird. :/
