Viva la Resistance!

Your the person that resist things, correct?

Says so on your profile

Maybe you can resist what you see that is offending? If you see someone offending others twice, then you might as well report that (First one and Second one) but if someone does it once, why not forgive the guy?

Depends on how offending it is.

Still, if things were that rude then sure youcan report it but wasting peoples time just for one comment is another
I'm not sure I understand.

trooprm has a public download of a (so I'm told) working key generator which can easily be used by people to get around network bans by XWIS. Also, I remember seeing somewhere that he shares serials or something. Therefore, I feel it is my duty to tell the XWIS admins, and hopefully get the offending serials banned from the network.
