EDIT::sorry i didn't see the FAQ at first but problom solved disregaurd...

umm wtf is error code 00000005? lol?
i just installed renegade on my comp and wehnever i try to launch RG or w.e it says that?
the comptuer is vista obveously? is there like a fix i need or sumtin? thnx
-lava

Note:yea i saw the thign in FAQ i haven't got a chance to check yet cuz i got maps installing and i
dnt wanna screw it up if it doesn't work afetr following the FAQ answer i shall tell u thnx (sorry
didn't see the FAQ at first lol)
