Its brings joy to my eyes seeing these bullshitters talk then, when they see me play or something, use cheats and try to compete. I give it 3 months before hes the next script kiddie being caught with the rg bypass. These fucktards dont bother to know that I got a like a fucking 85% win ratio, and im still not the best (lost to minge on 1vs1 field), but its pains me to say these forums are losing good players by the TONS because of fucking idiots like this kid, they all go to cw.cc now, and I guess apart from a few more here, theres really no point to stay here but for the laughs. Voted yes btw, like this is gonna do shit all so you've won 5/6 1v1 games? Not to break your troop i r t3h best bubble but all you've played are n00bs.

1v1 spoony?

^ tried to set that up dunno what happened to it.
