Goztow wrote on Tue, 03 July 2007 05:53 The problem is that while playing Trooprm you have everything to loose and nothing to win. He's the only one thinking he's the best, all others assume he sucks. If you win, then it'll be normal; if you loose, then he'll come here and brag about it.

you really have to be 9 years old not to play someone because they will "brag" about it. Ofcourse I will, first off i wanted to play that slave guy, now he says he wont play and creative tries to sneak out by arranging this game in this topic I he made. Dont think I forgot slave, nt tho. Its nothing personal apart from the fact of your ego, I have 1 too, so to do MANY players, the difference? Ill show you ingame.

if you are REALLY seriously refusing to play me in a server hosted by you, your map, your side, your everything that shows you have no chance at beating me so i see why you have nothing to win here at all, but a 2vs2 or 3vs3 is fine, but maps, sides, rules and etc will be worked out, who will your people be?
