Kid? I may live with my parents still, but I am no kid. The reason I still live with my parents is because it's more economical that I live there, cutting my monetary costs while I'm still going to school. It's not like I'm 25, either. I'm barely 21. Get over yourself, you pompous little fucktard.

I do play the game, but rarely. I didn't know that playing well determined whether or not I have the ability to reason. I hang around here because I'm still part of the community.

You're just annoyed that I hit the nail on the head with my previous post, and your retarded flaming is all you could do to retort my points. Consider your retort failed, and consider this an all too familiar, successful counter-retort.
