hsq91 wrote on Fri, 06 July 2007 11:06 Well... i think deleting the skins still didn't fix my altered files i think i got to reinstall the game and renguard? So they're all fresh?
Scripts 3+ uses DX9 which may be a cause for crashes depending on your system. I don't know if you installed these scripts recently.

A reinstall is never a bad idea to fix crashes. There's a list of 9 steps to reinstall Renegade as a sticky in the "renegade client" subforum.
