Sn1per74* wrote on Wed, 04 July 2007 23:53 Correct me if I'm wrong, but I think NR has WOLspy built into it. So maybe try using Night Regulator.

NR I'm pretty sure by using it it does not have a WOLSPY function it has something to check if you are using WOLSPY to let it run not really sure if u need to check it so use brenbot if you don't want to use WOLSPY (which is kinda buggy these days)
