just a little story that pissed me right off.

a guy named mjin or something like that(if you see him kill him) was somehow sniping ppl in the head from his base to our base with a GDI soldier. i dont know how this was possible because i managed to get in close with a stealth black hand and kill him from behind then he came out of the infantry barracks(so he couldnt have picked up a sniper rifle and he had a soldier again) and he sniped me in teh head with the soldier automatic rifle. what a bitch.
