cheesesoda wrote on Fri, 06 July 2007 12:50 Like Marxism, this idea doesn't work because you can't control a large amount of people.

I wouldn't mind seeing people smarten up and merge their small communities with others or merge small communities into larger ones. Too bad everybody wants to have power.

I was gonna say Communism doesn't work. As you guys listed there are so many problems other than the fact of money/bills and probably like 15 founders, all computer geeks, all ready/having knowledge to screw each other over
