I'm a vet admin of St0rm and I agree that co-op SUCKS.

Fuck Wilo atm because he doesn't put AoW up, I met him in boston like a month ago and should have put a gun to his head and forced aow but these aligations(spelling) and shit I could make that crap up about your server too, so I really dunno if its true.

St0rm AOW used to be the best in my opinion and I used to love it but it has now gone to ruins, I still play there daily with my friends but really Wilo needs to put AoW up. for you guys dissing wilo personally he's an awesome guy, as I said I met him and we chilled for a few hours so reilly MAOW

HORQWER you cheated and than applied for mod, so no, you can't have mod and I don't think your unbanned. Dont come here and bitch, but I do agree w/ you that AoW is more fun.
