So does that mean someone joins your community. Appears to be a great guys THEN you find out he cheats...he's not banned? Then screw your shitty server.
I wonder, if I would join their server with *caugh* on, and actively using it (of course to spot cheaters) would they ask me if I'm a nice guy before I get banned? Because I think that a lot of ppl here will agree with me, I'm a pretty nice guy. I might disagree with some of us here, but won't go to downright flaming.
