Well how you know it wasnt meant to be like that? coop was one of the official gaming modes for the game.

Umm no it wasn't??

I remember being on TS with wilo a LONG time ago when he was modifying the maps on his very first Co-op server, at the time I was under the impression that he was the first to do it but I could be wrong, either way it totally fucked up the ladder at the time (half the reason the game mode was popular).
