Alex wrote on Sun, 22 July 2007 05:49 Well with Vegas video, I have alot of control over my video and better rendering options. (Fully customizable, Sound and Video.)

But your videos had alot of effort put into them.

Appreciate it. And now that I think about it, the latest RP2 promo vid was actually done entirely in Flash... All the movies before it though were done with WMM, with every ounce of usefulness squeezed out of WMM.

Also, I've heard Pinnacle is good for movies...
