Viking wrote on Tue, 24 July 2007 08:40Hey I am trying to find pong for my to play on my cell-phone can someone help me out here? It is not offered as a game I can buy or anything and I really wanna play it!

My phone is LG Envy so please try to find me some pong to play on it!!!

1. Your phone is an LG enV, you idiot.
 2. Your phone uses BREW, not Java, and finding BREW games is next to impossible, as you can usually only get them through your provider.
 3. Look for your own damn self.
 4. This thread isn't for damn cell phone games.
