Hmm, last time I downloaded it there was just an EXE installer... try looking for the web install version of the download instead.

EDIT: This one should just be an installer:
http://www.microsoft.com/downloads/details.aspx?familyid=0BAF2B35-C656-4969-ACE8
-E4C0C0716ADB&displaylang=en

Pick the installer for your PC (generally the PSDK-x86.exe one, unless you have 64 bit in which case you need i64 (intel 64) or amd64 (amd 64))
