That is a Negative, Sir, I only saw a few E3's.

I really couldn't be bothered waiting for them, lol.

Hehe, well not much was shown but you can see everything from E3 on

I didn't even know E3 was happening until it was over. Some mario galaxy stuff, the new lightgun, steering wheel, brawl release date, games in the making and some sweet ass Left4Dead info!

Oh hell yeah! VALVe and Turtle Rock Studios are gonna' rape the gaming industry with Left 4 Dead.

And some old skool' games I hear? Oh wee!

The Metal Gear Solid 4 E3 just kicked ass so much I was moved, You really need to watch it, now!!

I have that MGS4 trailer on my PS3 in full 1080p. I watch it everyday. Then I wait...

That trailer gave alot of plot details away to. Plus, it was all ingame reneredered so fuck yeah.
