thx for the tip..
 but it didnt work for me

when i was on step 7 on that tutorial i did saved my lvl, and when i re-opened that lvl, it comes up with the same
"out of memory" error

and when i did not create any "human path generator" on my map, and saved -- then i can re-open the map without any problem, but when i do the generate sectors....out of memory appears..

lol i am still searching for anyone who know how to fix it
