you have a way to win the game by yourself.

Yet another player that does not understand, there is no "I" in team

lol... you don't know who you're talking to

Nor do I care

I play for the team

Remember i'm talking about doing this when you're on a team that can't even keep 1 building alive together let alone win the game. I don't care if I go lone wolf in a public server. This only happens when I have a hopeless team. It's not that important to use teamwork. Sometimes doing stuff like that is just more fun than trying to organize a bunch of tards.
