I'd say your lack of anything remotely relevant or mature to contribute is pretty evident... no sign of proving me wrong about having anything better to do than carry on a flamewar you started and lost a long time ago, either.

Question: are you physically unable to stop posting, or is it simply a case of not having anything else to do with your time than vent your furious anger at being called a geek? Something which, let's be honest, wouldn't realistically make a mentally well-adjusted person as angry as it made you? I ask only for information, though I don't expect a remotely intelligent response from a compulsive liar and a cheater.
