Hey,

Every time I edit a vehicles or buildings, And use these settings it works fine, Every time I try to export a character skin using these settings, It's a complete fail, Does anyone know the options I need to use to export a character skin?

Here's the settings I'm using..

And here's the outcome:

ARG!! Can someone point out what I'm doing wrong please? Them settings work perfectly with Building textures and Vehicles!
