I tried adding bases to the map but its really hard to make both sides fair so thats not going to work. Should I just make some weapon spawn and increase the units jump ability and the units speed a tad bit and release it or what?

Add a Barracks/Hand of Nod and a REF for both sides.

Fair, buildings are small enough to be put somewhere.

Lets get it on!

Or empty map to be made into a deathmatch.

Or do two versions.
